EDUCATION

University of Missouri-Kansas City (UMKC)

Bachelor of Science - Computer Science

GPA: 3.8

Kansas City, MO

Expected Dec 2024

SKILLS

Computer Skills: C#, C++, java, python, racket

Languages: Spanish

WORK EXPERIENCE

National Science Foundation Research Experience for Undergrads: AI-Empowered CyberSecurity KC, MO

Research Intern

June 2024 – Ongoing

- Develop a robust model using Large Language Models.
- The goal is to detect ransomware through Industrial Control Systems.
- Achieved 99% accuracy for binary classification.
- Additionally, 85% accuracy for a ransomware family classification scale.

Mizzou National Science Foundation Research Experience for Undergrads Program

Columbia, MO

Research Intern

May 2023 - July 2023

- Designed a model that detects/predicts cybersickness.
- Using a transformer machine learning model.
- Succeeded with an accuracy of 85% from a 1-10 cybersickness severity scale.

Undergrad NASA Project

Kansas City, MO

Research Intern

December 2021 - April 2022

- Simulated transmissions to outer space using artificial intelligence.
- Calculated areas of strength of the signals.
- Developed an interface to interact with the model and determine recommended frequencies for certain circumstances.

PROJECTS

Functional Programming Parser Project

March 2024

- Simulate a code parser using strict grammar, able to input any .txt formatted code
- Determines if input code is valid, otherwise throws an error along with line #
- DrRacket, and no outside assistance

HONORS & AWARDS

Deans List

May 2020, June 2022, April 2024
